

# Download

Obtain the EzGet library (containing the EzGet, cdunif and DRS libraries) appropriate for your platform:

- [Sun/SunOS 4.1.3 library](#) (450 KB)
- [Sun/Solaris 2.7 library](#) (630 KB)
- [IBM RS6000/AIX 3.2 library](#) (510 KB)
- [HP/HP-UX 9.0 library](#) (430 KB)
- [SGI Irix 5.3 library](#) (550 KB)
- [Cray C90 library](#) (710 KB)
- [linux 2.2/Redhat 6.1 \(compiled under Portland Group Fortran driver 3.1\) library](#) (370 KB)

If you will be reading data stored in netCDF format, you will need to obtain the [netCDF](#) library.  
Once you have transferred the EzGet files to your computer, you should uncompress and extract the individual files from the tarred files (see [EzGet Installation Guide](#)).
